- Several years ago Tropicana developed a [teaching video](#) for the classroom called **Lucky Clover**. It runs for almost 5 minutes and gives tips on how to give a speech which coordinates with the Speaking tips leaflet provided to each student. Two copies of the video were provided to each school. Please check with your public speaking contact or media specialist for where the tapes are stored. If you are unable to locate the video, call Bobby Roberts. He can make arrangements to broadcast or duplicate it for you as it is not copyrighted and we have been granted permission from Tropicana to duplicate as needed.
