Limited Commercial Landscape Maintenance Certification
Training Class & Exam
Wednesday, March 21, 2012

If you work for a commercial landscape maintenance company and use herbicides (such as Roundup) or certain pesticides in landscape beds, the State of Florida requires that you have a limited commercial landscape maintenance certification.

To take the test to receive this certification, you must take a 6-hour course first. So, the course on March 21 is designed to help you comply with this requirement and prepare you for the exam, which will be given at the end of the training.

If you already have the certification and need your annual CEU’s to help you keep the certification, or if you need to take the Limited Lawn & Ornamental exam (for government employees who apply pesticides), this class will also help you. (Trainer - Sheila Dunning, Extension Agent for Environmental Horticulture, Okaloosa County and David Marshall, Extension Agent for Horticulture, Leon County)

For those of you who wish to take the test and receive the Ltd. Commercial Landscape Maintenance certification, you must bring:

1. Passport picture (can be made at many stores like CVS, Walgreens, Tallahassee Camera & Image Center). 1.5 x 1.5 inches, clear, full-face photo.
2. Current picture ID such as driver’s license.
3. Check of $150 made payable to FDACS (Fla. Dept. of Agriculture & Consumer Services). This is the exam fee.

Upon passing the exam, the state will ask you to provide a certificate of Insurance with a minimum of $400,000 (FDACS Form 13654 or an Accord Form used by Insurance Agents.) You don't have to bring the form to the class, but may if you already have it.

Registration fee for the class needs to be in our hands by the end of the day, Friday, March 16. That fee is $35, made payable to Leon County Extension Fund. Use the accompanying form to submit your registration. Registrations received after Friday, March 16, will be $50. This registration covers your lunch and refreshments.

8:00-8:30 Registration and paperwork.
