

Pesticide Products No Longer Available for Use

Dursban and **Diazinon** are no longer available for residential indoor and outdoor landscape pest management use. In addition to Dursban and Diazinon, the following pesticides have had residential turf and/or ornamental uses removed from the label.

Daconil (chlorothalonil) residential turf use

Kelthane - residential turf and ornamental use

Orthene (acephate) residential turf use except for spot treatments of fire ant mounds, will be gone at end of 2002.

Lindane - all uses (except for seed treatment)

Chipco 26019 (iprodione) residential turf use

Ronilan (vinclozolin) residential turf use.

We will keep you up-to-date if any other pesticides have indoor or outdoor residential uses removed from the label. This information was released by Dr. Norm Nesheim, Pesticide Information at the University of Florida/IFAS.
